25th February 1992

JHB/VT/30589A

Dear Jeff

PM 1319 Finland Divisional  
Our File: 30589A

Our Finnish associate has now reported the filing of a divisional application in this case and copies are enclosed of the application as filed (in Finnish) and an English translation of the claims as filed.

The application was filed on 22 November 1991 but is entitled to the date of 21 July 1989 and a priority date of 22 July 1988 (USSN 223232).

Our associate had delayed reporting the divisional filing because she was engaged on amending the claims, following our correspondence and conversation earlier this year. The early issue of an official action has now altered her plans. A translation of the action is enclosed, which is due for reply not later than 20 May 1992.

The references cited are already familiar to us but copies of the essential pages of each are enclosed. The Examiner's approach to this application is extremely superficial because the references are all cited to show particular shapes of passages in a heat source, whereas the shape of the passage does not figure at all in the claims of the divisional application.

Please let me have your comments.

Yours sincerely

DOCKETED FOR 5/20/92-13

  
J. H. Bass
